

## BST Stainless Steel Funnels | ST6F\*SSMS

---

### The BST Stainless Steel Funnels

---

These BST funnels are made from of 304 grade stainless steel and feature a hanging loop for easy storage and practicality. These funnels are robust, durable and are crevice free as they're made from a one piece body with the spout welded on and rolled top smoothed edge. Ideal for food production as well as other hygiene critical environments.

### Stainless Steel Funnel Advantages

---

- ✓ Detectable by in-line metal detection systems & x-ray inspection systems
- ✓ Food safe, hygienic 304 stainless steel metal
- ✓ Reduces the risk of items contaminating production lines
- ✓ Available in two different sizes
- ✓ Features hanging hooks and a rolled smoothed edge
- ✓ Bright polished finish and crevice free
- ✓ Can be used as part of HACCP and BRC procedures
- ✓ Displays due diligence in the prevention of foreign body contamination

## Safety Certificates / Approvals

BRC Compliant      ISO 9001:2015

## Metal Detectability

This product is manufactured from 304 grade stainless steel, making it detectable by correctly calibrated metal detection systems as stainless steel contaminant.

BST recommend that all our products be thoroughly tested on your metal detection system / x-ray inspection system by a trained and certified professional. Your equipment may need to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.

The information provided in this product specification sheet is based on our experience and knowledge to date and we believe it to be true and reliable. This information is intended as a guide for your use of our products, the use of which is entirely at your own discretion and risk. We, BS Teasdale & Son Ltd, cannot guarantee favourable results and assume no liability in connection with the use of our products. © 2020 BS Teasdale & Son Ltd.
