Product Specification Sheet

BST Food Safe Metal Pens | ST2T4*

The BST Food Safe Metal Pens

The Food Safe Metal pen contains no detachable parts and is fully metal detectable, making it ideal for hygiene critical food and pharmaceutical production areas where foreign body contamination is not an option.

The body of the pen is manufactured from stainless steel, with a brass nib and an optional steel clip. The pen contains a standard plastic ink cartridge which is 100% sealed into the body, even with applied force the pens end plug will not detach.

Food Safe Metal Pens Advantages

- ✓ Detectable by in-line metal detection systems & x-ray inspection systems
- ✓ Can be used to form part of HACCP and BRC procedures
- ✓ Contains no detachable parts, for added safety in controlled environments
- ✓ Feature a metal clip with blue and black writing ink
- ✓ Displays due diligence in the prevention of foreign body contamination

Product and Packaging Information

| Blue Ink with Clip | ST2T410MB | Body Material | Stainless Steel |
|---------------------|-------------|----------------|-----------------------|
| Blue Ink w/o Clip | ST2T420MB | Nib Material | Brass |
| Black Ink with Clip | ST2T410MK | Pack Size | 50 |
| Black Ink w/o Clip | ST2T420MK | Pack Weight | 0.55kg |
| Write Out Length | 800 - 1000m | Detectability | Metal & X-Ray Visible |
| Ink Colour | B,K | Commodity Code | 96081010 |

Ink Properties

Ink contains poly-alcohols and a mixture of dyes and synthetic resins. Ingredients conform to EN71 and are non-toxic. The ink is non-flammable and has a reactivity classification of stable.

Ink Safety

In case of contact with eyes rinse immediately with water and seek medical advice. The ink may cause light irritations but should not cause permanent damage. In case of contact with skin, wash with warm soapy water.

Safety Certificates / Approvals

BRC Compliant ISO 9001:2015

Metal Detectability

BST recommend that all our products be thoroughly tested on your metal detection system / x-ray inspection system by a trained and certified professional. Your equipment may need to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system. Please note; this pen contains a standard plastic ink cartridge.
