

## BST Stainless Steel Rulers | TE1SR\*\*0MS

---

### The BST Stainless Steel Rulers

---

We are delighted to offer precision made stainless steel rulers in a variety of lengths. Tough, durable, easy to clean and with graduations in metric & imperial.

Ideal for food production as well as other heavy duty and hygiene critical environments.

These stainless steel rulers feature both metric and imperial measurements, with a conversion table between inches and mm engraved on the reverse. Available in 6" Inch, 12" Inch, 24" Inch and 36" Inch.

### Stainless Steel Ruler Advantages

---

- ✓ Detectable by in-line metal detection systems & x-ray inspection systems
- ✓ Food safe, hygienic 316 stainless steel metal
- ✓ Reduces the risk of items contaminating production lines
- ✓ Available in four different sizes
- ✓ Can be used as part of HACCP and BRC procedures
- ✓ Displays due diligence in the prevention of foreign body contamination

## Detectability

This product is manufactured from 316 grade stainless steel, making it detectable by correctly calibrated metal detection / x-ray inspection systems. We recommend that your systems are capable of detecting a 2mm Stainless Steel test piece, available to purchase from BST Detectable Products

BST recommend that all our products be thoroughly tested on your metal detection system / x-ray inspection system by a trained and certified professional. Your equipment may need to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.

The information provided in this product specification sheet is based on our experience and knowledge to date and we believe it to be true and reliable. This information is intended as a guide for your use of our products, the use of which is entirely at your own discretion and risk. We, BS Teasdale & Son Ltd, cannot guarantee favourable results and assume no liability in connection with the use of our products. © 2020 BS Teasdale & Son Ltd.
